Did you know?

Fastest way to charge and save energy on your power bank

Some smart phones automatically update the latest software, which consumes more battery power, if you want to save energy from a power bank then put your phone on flight mode that will disable your network, and which enables to charge much faster.

PB-8000-BK

8,000 mAh Powerbank with Built-in Cables

Textured design powerbank with built-in cables & phone holder
Lithium Polymer Battery. Input : DC 5V/2.1A,
Output : DC 5V/1A & DC 5V/2.1A. Product Size : 143 x 68 x 20 mm.

Printing options : Screen Printing, UV Printing

POWERBANK
BUILT-IN CABLES

POWERBANKS

Never let your battery drain mostly when you are spending memorable events.

Connectivity is the key

The majority of Power Banks available in the market are only compatible with the regular Charging ports of the Android phone and lack in facilitating the charging of the iOS phones. Therefore, before buying a suitable type of Power Bank you should look after the supporting capability of the same.

BK

W

JU-PB-5000

5,000 mAh Mini Size Powerbank

FLASH DRIVE

makes an impressive & practical Corporate Gifts
while promoting your brand at the same time.

USB Flash Drives

We specialize in importing quality USB Flash Drives for promotional purposes. Our USB Flash Drives are sourced from reputable factories using quality components such as Samsung or Toshiba and carry a warranty against defects. We pride ourselves on high standard levels and after sales services to ensure you peace of mind when dealing with us.

Reasons why you choose us as your USB Flash Drive source.

- We import original chips separately and after testing & quality checking, We fix them in USB shells.
- We never import duplicate or upgrade chips and we offer warranty against defect.
- Fast delivery from ready stock.
- Big variety and range of products to select.
- Competetive prices with higher quality.
- Mock Ups and E-Samples

What are upgraded chips?

Unfortunately some manufacturers using a lower capacity memory and selling as a higher capacity memory.

What are upgraded chips?

(1) They use a software to upgrade 1 GB to 4GB. When using the chip in your computer it shows 4GB but can't accept files more than 1 GB because the real capacity is 1 GB.

(2) They use 4 pcs of 1 GB chip instead of 1 piece 4 GB memory. When you save a file more than 1 GB it will show an error and if you save a file less than 1 GB it will be saved but when you need to reopen the file, as it is not clear in which one of the chips is saved. again

We never use upgrade chips
We use only original chips!

WRITING INSTRUMENTS

We have a large collection of promotional pen
in wide range of design, High Quality Brands and Colours.
Categorized as Plastic, Metal & ECO Friendly Pens

maxema®

Maxema Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

Why choose Maxema Antibacterial Pen?

The plastic used is antibacterial

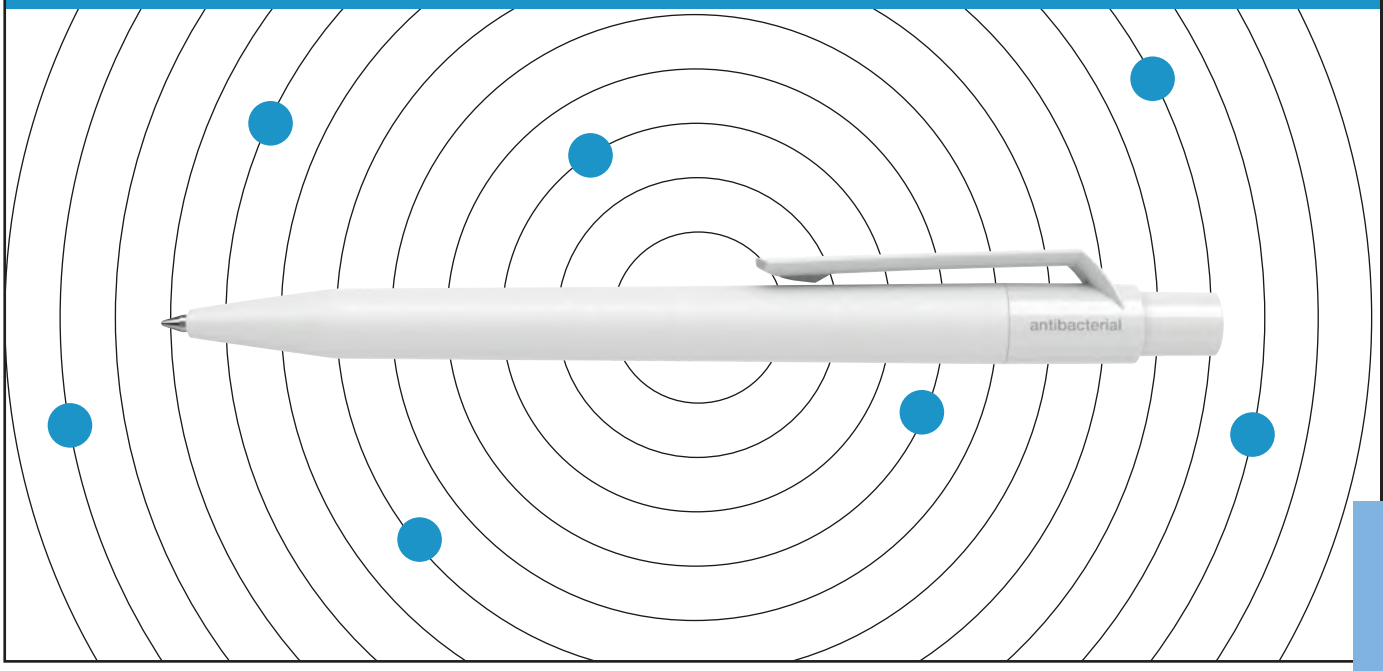

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

We Care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

Bamboo Facts!

As a plant, bamboo is one of the fastest growing in the world. It can grow as much as one meter in 24 hours.

Bamboo crops absorb carbon dioxide and can generate up to 35% more oxygen than the same amount trees.

Using bamboo is not only overall environmentally friendly, it is also one of the strongest material on the planet. Bamboo has a strong, natural fiber that has shown to be superior to similar materials like wood. Although it is strong and sturdy, it is very flexible and doesn't break easily when flexed.

Customized Dri-fit shirts

For Full Color Sublimation Printing

Dri-fit Material

A polyester fabric which transports sweat, heat and moisture away from the skin to the outside of the garment where it evaporates, keeping you dry & comfortable.

Polo-Shirts (Unique Blend)

The Key Feature of the fabric is that it is constructed in a way where the inside of the fabric worn next to the skin is predominantly cotton and the outside is polyester. this therefore combines the comfort of cotton with the hardwearing properties of polyester.

- » Easy Care
- » Breathablity
- » Shape Retention
- » Total Comfort
- » Wickability
- » Softness
- » Quick Drying
- » UV Protection

CUSTOM ECO-FRIENDLY *Lanyards*

Recycled plastic bottles made into finely weaved yarn for lanyards

RPET stands for recycled polyethylene terephthalate, or recycled PET. PET is a strong, durable and recyclable material that is used for soda bottles, water bottles and food jars, while RPET can be made into such products as blankets, insulation, car parts, shoes and more. RPET is produced by collecting, sorting and recycling PET, then refining the material into flakes that can be turned into new products. Using RPET as an alternative to PVC is a huge step forward on the path toward a greener, safer and cleaner future.

Huge step forward on the path toward a greener, safer and cleaner future.

Create your custom RPET Lanyards

Full color printing

Recycled RPET lanyards are printed in single or full colour process in CMYK with no colour restrictions.

Your choice of accessories

Choose from our selection of clips and add-ons as per your requirement.

Lanyard Details
